### **Flex receives 3<sup>rd</sup> consecutive European Lenovo Logistics Excellence Award**

**San Jose, California, and Venray, The Netherlands September 20, 2021** – Flex (NASDAQ: FLEX) today announced it is the winner of the European Lenovo Logistics Excellence Award, its third consecutive award in this category. The award was presented to Flex at the recent Lenovo Global Logistics Suppliers Conference FY21/22 in recognition of sustained high performance and flexibility despite growing complexity and significant increases in volumes.

Flex supports Lenovo PC & Smart Devices, Mobile and Data Center business groups and offers a number of supply chain management services including ocean and rail transport, inventory management, and logistics support.

Flex also manages Lenovo repairs, parts and last mile distribution to Lenovo customers in Europe.

Speaking at the virtual Lenovo Supplier Conference, Lenovo Logistics Director EMEA, Dick van Beek said, "In what was an extraordinary year for logistics, Flex delivered outstanding support to the Lenovo EMEA Region. As more people worked from home, we saw increased demand for our products combined with increased complexity in getting those products to customers. Flex adapted without missing a beat, and are deserving winners of the Logistics Excellence Award."

Commenting on the award, Pat Ring, Senior Vice President and General Manager for Flex Global Services and Solutions said, "We are truly honored to receive this award for the third consecutive year and I am very proud of the commitment and motivation by our team in a highly volatile and dynamic environment. Collaboration, communication and trust are the characteristics that enabled us to maintain high levels of service delivery despite the many challenges of the last year."

#### **About Flex**

Flex (Reg. No. 199002645H) is the manufacturing partner of choice that helps a diverse customer base design and build products that improve the world. Through the collective strength of a global workforce across 30 countries and responsible, sustainable operations, Flex delivers technology innovation, supply chain, and manufacturing solutions to diverse industries and end markets.
