

PRESS RELEASE

Flex Announces Revathi Advaiti as CEO

Electrical industry leader and former Eaton executive joins \$25 billion global manufacturer

SAN JOSE, Calif., February 11, 2019 – Flex (NASDAQ: FLEX), the *Sketch-to-Scale*® solutions provider that designs and builds intelligent products globally, today announced that Revathi Advaiti, 51, has been named Chief Executive Officer and appointed to the Board of Directors at Flex.

“This is a time of tremendous opportunity in manufacturing, as trends such as regionalization, artificial intelligence, 5G and advanced manufacturing all combine to improve the way we live and work,” said Ms. Advaiti. “With locations in 30 countries and expertise in a dozen industry verticals, Flex has the necessary breadth and depth to help companies develop and launch innovative products at global scale and intelligently manage a shifting business landscape. I look forward to building upon Flex’s 50-year history and strength in manufacturing.”

“The Board conducted an extensive and thorough search, considering both internal and external candidates,” said Michael Capellas, chairman of the Board of Directors for Flex. “Revathi’s depth and breadth of capabilities from engineering to manufacturing to advanced supply chain management coupled with her exceptional leadership and proven track record make her the ideal choice to lead Flex. We are confident that she will lead Flex to realize its full potential.”

Prior to Flex, Ms. Advaiti was president and chief operating officer for the Electrical Sector business for Eaton, a power management company with over \$20 billion in sales, 102,000 employees and a market capitalization in excess of \$33 billion. She also had corporate responsibility for the Europe, Middle East and Africa region. Ms. Advaiti managed the largest of Eaton’s businesses, consistently delivering high margins, while reducing earnings volatility. She secured more than \$13 billion in sales in 2018, with an array of electrical solutions built on the strengths of full-scale engineering and support services.

Ms. Advaiti began her career as a mechanical engineer in her native India, then moved to the US where she started her Eaton career on the factory floor as a plant supervisor in Shawnee, Oklahoma. Over the years, she expanded her engineering role to international markets, adding operational management and supply chain expertise. Ms. Advaiti brings to Flex her deep and highly relevant experience across engineering, operations, supply chain, material procurement, distribution, logistics and international management.

Ms. Advaiti has a bachelor's degree in mechanical engineering from the Birla Institute of Technology and Science in Pilani, India and an MBA in International Business from the Thunderbird School of Global Management in Glendale, Arizona. She currently serves as a non-executive director on the BAE Systems

board. She also serves on both the executive committee and board of governors of the National Electrical Manufacturers Association, and on the board of the Women’s Center & Shelter of Greater Pittsburgh. She is a strong advocate for STEM education for girls, women’s issues and diversity in the workplace.
