

# Accelerating Healthcare

Flex helps medical device, medical equipment, and pharmaceutical companies bring innovative products to market faster. Through integrated design, engineering, advanced manufacturing, and supply chain solutions, we help customers reduce complexity, improve resiliency, scale globally, and create value across the entire product lifecycle.

## Making great products that create value and improve lives, together

We offer a unique set of capabilities that enable healthcare companies to meet their goals. We partner with our customers to create business value across the product lifecycle, from design to end-of-life.

**Capitalize on innovation cycles and accelerate time-to-market**

**Lower risk and increase resiliency with global footprint**

**Create value across the product lifecycle**

**Integrate sustainability from design to end-of-life**

## Advanced manufacturing and design footprint for global scale and regional reach

With more than 1,300 medical engineers, our global footprint enables you to get to market faster and scale your products rapidly, when and where you need them, to meet critical healthcare needs.

**2** design and process development hubs

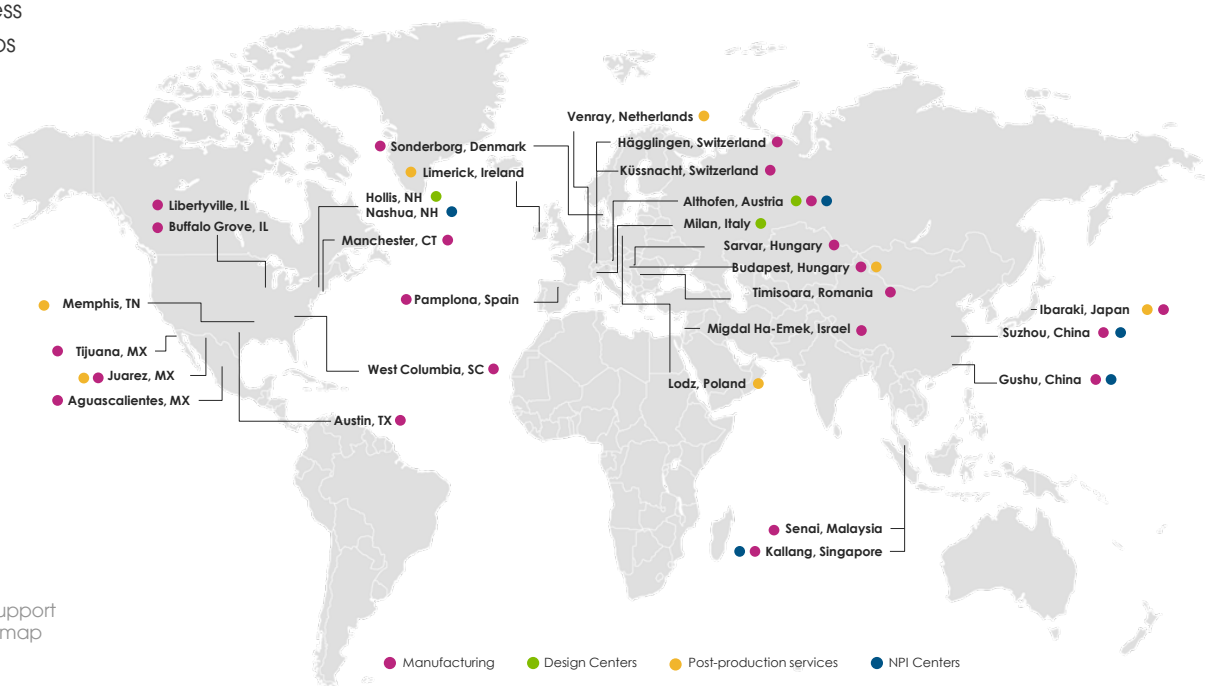

**10** post-production services sites

**26** manufacturing sites

**16** FDA registered entities

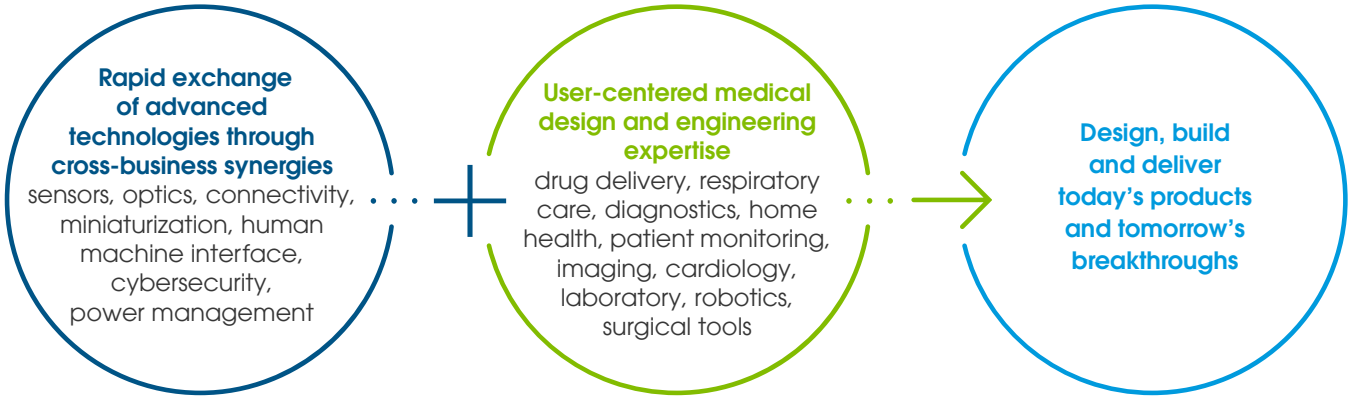

**30** ISO13485 designated sites

Above totals include support sites not shown on the map

## Accelerating time-to-market through deep technology and domain expertise

We enable you to specify, conceptualize, develop, test, and sustain products through the combination of our design and engineering expertise and cross-business synergies.

## Strategic partner across diverse markets

We partner with industry-leading companies across diverse markets to solve the world's most complex healthcare challenges.

### Medical devices

- Continuous glucose monitors
- Surgical devices
- Wound care
- Personal wearables

### Medical equipment

- Diagnostic imaging systems
- IVD systems
- Robotic surgery systems
- Powered hospital beds

### Drug delivery

- Biologics autoinjectors
- Wearable injectors
- Insulin pumps
- Metered-dose inhalers

## Recognition of excellence in design and manufacturing

We are purpose-driven to make great products for our customers that create value and improve people's lives. Our recent industry recognition includes:

Manufacturing Leadership Council

**2025**
Manufacturing Leadership Award for Digital Supply Chains

2026 WORLD'S MOST ETHICAL COMPANIES® ETHISPHERE

**2026**
Ethisphere World's Most Ethical Companies

**2025**
PDA Drug Delivery Innovation Award

INTERNATIONAL DESIGN EXCELLENCE AWARDS

**2026**
IDEA Gold, the Impact Award, and Best in Show
