

A seamless automotive user experience

At Flex, we delight in elevating every single detail of the mobility experience, not just the most obvious ones.

Among our wide variety of in-vehicle experience offerings, Flex is a global leader in overhead consoles and interior lighting with a focus on high-quality and advanced technologies. MCI, a Flex company, further expands our portfolio as a global leader in mirror actuators who continue to innovate the motion control market.

Complemented by our unique cross-industry experience, Flex can accelerate advanced smart user technologies that enable in-cabin comfort, convenience and personalization for next generation mobility solutions.

flex

A comprehensive view of the future

At Flex, we build hundreds of millions of products and technologies every year, from cloud server solutions to EV charging stations.

Our automotive portfolio is focused on the key mobility megatrends that are most impacting our lives. We have decades of automotive design experience and collaborate with the entire mobility ecosystem, including OEMs, technology providers, and key diverse suppliers around the globe.

Next generation mobility is in motion.

Our solutions:

Autonomy/ADAS

Providing the scalable compute and sensing technologies needed to enable a future of increased mobility and zero accidents.

Connectivity

Offering the core vehicle architecture building blocks to advance the complex needs of tomorrow's software-defined vehicle.

Electrification

Award-winning solutions designed to accelerate the transition from internal combustion engines to zero-emission dedicated EV platforms.

Smart Tech

Designing and delivering the next generation of smart automotive technologies that support a rich, seamless user experience.

Product Spotlight:

Advanced Overhead Consoles

We've been making overhead consoles for over a decade, and our current design platform is better than it's ever been. With extremely high-quality finishes, advanced interior sensing, integrated haptic feedback, and intelligent lighting technologies, it stands out from the rest.

Flex (Reg. No. 199002645H) is the manufacturing partner of choice that helps a diverse customer base design and build products that improve the world. Through the collective strength of a global workforce across 30 countries and responsible, sustainable operations, Flex delivers technology innovation, supply chain, and manufacturing solutions to diverse industries and end markets.
