

Colin Chapman

Senior Vice President,
Value-Added Services
Business

Colin Chapman is the senior vice president of the Value-Added Services Business at Flex, the advanced, end-to-end manufacturing partner of choice that helps market-leading brands design, source, build, deliver, and manage products that improve the world.

As part of Flex's integrated end-to-end lifecycle offerings, Mr. Chapman leads the company's Value-Added Services Businesses, including component and supply chain management services, racks and enclosures, forward logistics, value-added fulfillment, reverse logistics, and circular economy capabilities. Partnering with Flex's business segments, he is responsible for driving Flex's Value-Added Services strategy to enable customers across various industries and end markets to address unique supply chain, post-production, and post-sale needs.

Throughout his 17 years at Flex, Mr. Chapman has held several management roles. Most recently, he led the Consumer Devices Business, focused on mobile phones, audio devices, laptops, wearables, and set-top boxes. Prior to that, he was vice president of global sales and marketing for the Communications, Enterprise and Cloud Business, where he and his team delivered significant revenue growth and market share gains, particularly in data center applications. His diverse experience at Flex spans global account management, business development, supply chain, and global operations roles.

Mr. Chapman holds a bachelor's degree in supply chain management from Arizona State University and a certificate of specialization in leadership and management from Harvard Business School Online.
