

# Elevate your cordless products with Flex portable power solutions

Build and scale your battery packs and chargers in regions globally with our advanced manufacturing services

Discover the ultimate combination of innovation, reliability and efficiency with our global network of battery pack and charger manufacturing services. As a global leader in the design and manufacturing of products that enhance the way we live, we enable you to cut the cord from the complexities of offering portable products.

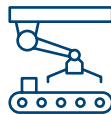

## Design & Engineering

Choose a partner with industry-leading global innovation, design and engineering services, and product enabling technologies

## Global scale and regional reach

Fulfill your manufacturing requirements with our proximity to end markets in all key geographies.

## Advanced automation

Drive productivity and quality through our advanced manufacturing system.

## Extending the lifetime of your products

Reduce your company's environmental impact with our sustainable manufacturing and circular economy solutions.

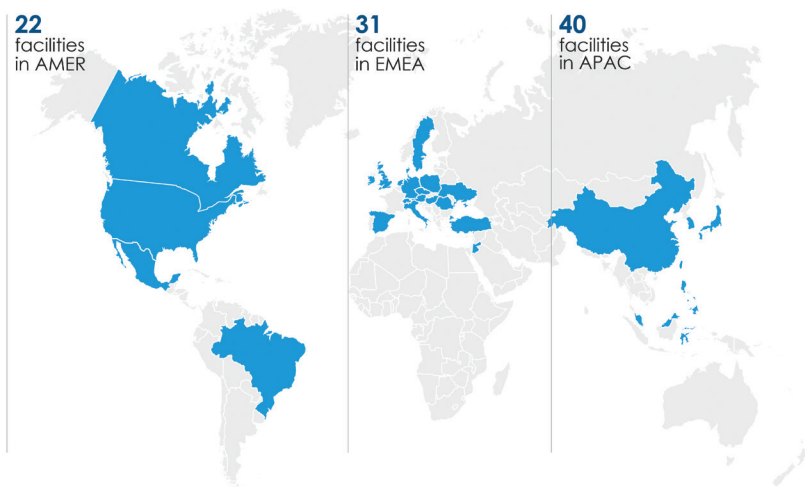

**flex**  
Create the extraordinary.

## In-region automated manufacturing solutions at scale

Our state-of-the-art manufacturing facilities are equipped with cutting-edge automation technology ensuring streamlined production at scale. This allows us to deliver high-quality battery packs and chargers that stand the test of time, all while maintaining competitive pricing.

We understand that managing the complexities of portable power can be daunting, which is why our dedicated team of experts is here to simplify the process for you. By partnering with us, you will benefit from our vast knowledge, advanced technology, and seamless integration, ensuring that your portable power needs are met with ease and efficiency.

## Cross-industry technologies

Tap into our broad portfolio of power products across industries to stay ahead of your competitors. Develop your battery powered IoT solutions confidently and securely with our cross-industry expertise in appliances, floor care, garden and power tools. Take advantage of our sensor integration and connectivity product technology to minimize complexities, speed time-to-market and provide your customers with a reliable, connected user experience.

### Optimizing your supply chain

Our comprehensive supply chain and logistics services ensure seamless delivery of your products to market with speed, reliability, cost competitiveness and sustainability, no matter where you are in the world.

### Deep domain expertise

Our extensive network of technology experts coupled with our global manufacturing footprint and years of experience in the development and manufacturing of portable power solutions sets us apart from the competition.

### Sustainability is in our DNA

We can deliver a closed loop circular economy solution to reduce your environmental impact, by offering repair and refurbishment services to extend the life-cycle of your battery products.

**A-** rating for carbon  
**A** rating for water

**Index Series** for the fifth consecutive year

**#1** scoring on all ESG pillars

**Named in yearbook** for three consecutive years

**AA** rating for 2021
