

Enabling secure, smart home devices designed for the modern home

For over 55 years, Flex has been the manufacturing partner of choice for premium brands, bringing innovative products to market at scale.

A partner engineered for today's smart home landscape

Smart home brands face growing complexity, from regulatory pressures to tightening IoT cybersecurity standards. Flex helps OEMs manage where and how products are manufactured, including component sourcing and supply chain resiliency, so your team can focus on product innovation and market growth.

Advanced Manufacturing

Automation and advanced manufacturing capabilities across a global footprint.

Quality & Regulatory Compliance

Quality management systems and deep experience supporting regulated products.

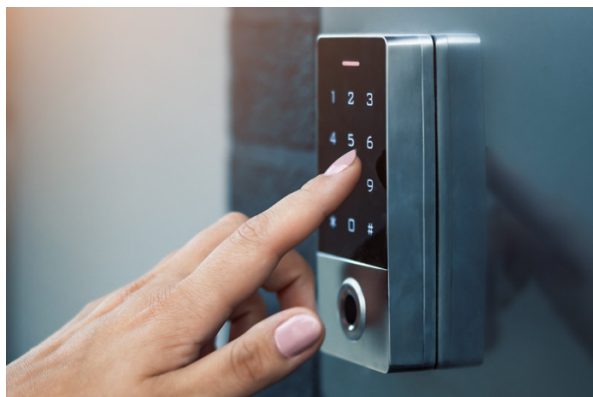

Security-Driven Localization

Address security and regulatory mandates through a regionalization strategy.

Scalability and Reach

Scale with confidence, leveraging a global network of sites close to your end markets.

Extensive capabilities across a range of devices

From flexible circuits to full product validation, our design, engineering, and manufacturing operations are built to deliver secure, connected devices at scale.

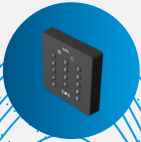

Security Camera

Smart Lock

Electronic Lock

Door Access Control
